- Hope for the Future

At this time of year everything looks like a Xmas Tree.

The picture, above, is known as the Yanghui Triangle it is the oldest known depiction of what is now called **Pascal's Triangle**.

(So I made my own Xmas Tree)

[Click image to open App. in new tab / window](#)

You can decorate the tree by cycling through **Modulus** 2 to 13. The number clusters make patterns; that should amuse you for five minutes!

• *Educational Institutions:* Are welcome to use and distribute these free Apps; at their discretion. Many Thanks to our Sponsor **Hunter Hall Investment Management** Australia's largest dedicated ethical investment manager.

• *Declaration:* Apps are all offered in good faith.
